

## Coriant® Staging Services

*Factory Configuration to Prepare Shelves and Racks for Quick and Easy Onsite Installation*

### SERVICE SPECIFICS

Staging, also known as pre-installation, configuration, or rack and stack, is a factory activity preparing system shelves and racks for onsite installations. Shelves and racks are furnished and tested with all Coriant hardware and software prior to shipment to the installation location. Staging is available on a shelf level or on a rack level.

#### Shelf Staging:

- Install hardware and software and conduct basic functional testing
- Pack and ship in a single carton

#### Rack Staging:

- Shelf staging, plus,
- Equipment installed in a rack including grounding, power, and internal fiber connections

Shelf and rack staging are available for Coriant products as shown in the following table:

System	Shelf Staging	Rack Staging (ETSI or ANSI)
hiT 7300 Multi-Haul Transport Platform	Yes	Yes
mTera® Universal Transport Platform (14-slot)		
mTera® Universal Transport Platform (8-slot)		
7100 Nano™ Packet Optical Transport Platform		
7100 Pico™ Packet Optical Transport Platform
